## New Online Design Program to Launch

With ongoing upgrades and developments we have been able to create an innovative Online Design Program exclusive to Hoop2Hoop | Oomph Sports.

Our new innovative program allows a team to create a custom uniform by choosing from three levels of design ability.

Design options include choosing a stock uniform, creating a uniform from scratch, and a selection of fonts and logo's.

In the advanced level you can create a sublimated uniform with your own uploaded graphics.

A gallery of sublimated templates is provided.

Keen designers beware – this is for experienced Graphic Artists only.
